PLACEMENT CELL

The Training & Placement Cell comprises a dedicated team of experts committed to offering invaluable guidance for students' advancement. It maintains strong connections with various industries, regularly seeking industry insights to groom students for successful professional careers.

The active Placement Cell strategizes training and placement initiatives with the primary goal of securing lucrative job opportunities for students in reputable companies. With an outstanding placement track record, many students kick-start their careers even before graduation.

The Placement Cell is dedicated to fostering dynamism, ethical values, technical proficiency, and effective leadership qualities among all students. Its core function is to meet the fundamental requirements of the corporate world. Beyond placements, the T & P Cell focuses on equipping students to tackle current industry challenges by staying updated on market trends. Regular interactions with seasoned professionals from diverse pharmaceutical industries enrich students' knowledge and motivation towards practical life and industry expectations.

Organizing educational tours and industrial visits exposes students to real-world working environments, enhancing their practical understanding. The Placement Cell integrates students into planning, executing, and managing day-to-day training and placement activities. This involvement nurtures their sense of responsibility, fosters effective planning skills, boosts confidence, shapes them into promising leaders, and refines their overall character.

The Placement Cell strives to guide exceptional students towards rewarding careers in the pharmaceutical industry, providing coaching and preparation for interviews with multinational pharmaceutical companies. It's our duty to empower students to excel in their professional endeavors.
